SUBJECT: Transmittal of the Draft Scope of Work (SOW) for Operable Unit 3-08A (ICPP North Area RI/FS) - (OPE-ER-035-93)

Dear Mr. Pierre and Mr. Nygard:

The attached Scope of Work (SOW) for Operable Unit (OU) 3-08A (ICPP North Area RI/FS) is being submitted to meet the requirements in the Federal Facility Agreement and Consent Order (FFA/CO). Included in this SOW is the scope, schedule, and deliverables for this RI/FS.

A scoping meeting was held on September 20, 1993, with the State and EPA to discuss OU 3-08A. As a result of the scoping meeting, it was agreed to accelerate the schedule for this RI/FS to the current working schedule of 18 months. Because there are no field activities scheduled for this RI/FS a Workplan will not be prepared. Those parts of a Workplan that would be used for the preparation of the RI/FS report have been included into this Draft SOW to reach consensus on these issues prior to development and submittal of the Draft RI/FS.

The FFA/CO review time for this SOW is 45 days, but if you have significant comments please let us know within 30 days. If you have any questions, please call Talley Jenkins at (208) 526-4978.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Lyle", is written over the typed name.
